

SAFETY DATA SHEET

Date of Issue – 12/06/16
Revision – 20/01/20

PRODUCT IDENTIFICATION AND SUPPLIER

Name: 320 Diamolac 1k HB Clear Lacquer (All Gloss Levels)

PRODUCT CODE: 320

APPLICATION: 320 Diamolac is an alkyd modified nitrocellulose pre-catalysed air-drying lacquer. Intelac has been specifically formulated for spray application on industrially manufactured timber furniture.

SUPPLIER: **Superior Timber Coatings** 13/257 Colchester Road Kilsyth Vic 3137
Emergency telephone number:
From 8.30am to 3.30pm (AEST) +61 03 9761 6899 Out of the mentioned hours, Saturdays and Sundays and during periods of closure for holidays please call: +61410 635 016

ROAD AND TRANSPORT CLASSIFICATION

UN No: 1263

Paint (including paint, lacquer, enamel, stain, shellac solutions, varnish, polish, liquid filler and liquid lacquer base) or PAINT RELATED MATERIAL (including paint thinning or reducing compound)

D.G: 3

HAZCHEM: 3[Y]E

P.G: II

HAZARD IDENTIFICATION

Hazardous according to criteria of Safe Work Australia

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

GHS CLASSIFICATION

Signal Word

Danger

HAZARD CLASSIFICATIONS

Flammable Liquids	Category 2	
Aspiration Hazard	Category 1	
Acute Toxicity-Dermal	Category 4	
Acute Toxicity- Inhalation	Category 4	
Skin Corrosion/Irritation	Category 2	
Eye Irritation	Category 2A	
Specific Target Organ Toxicity (Single Exposure)		Category 3 Narcotic Effects

HAZARD STATEMENTS

H225	Highly flammable liquid and vapour
H302	Harmful if swallowed
H304	May be fatal if swallowed and enters airways.
H312	Harmful in contact with skin
H315	Causes skin irritation.
H319	Causes serious eye damage
H332	Harmful if inhaled
H336	May cause drowsiness or dizziness.
H373	May cause damage to organs

PREVENTION PRECAUTIONARY STATEMENTS

P201	Obtain special instructions before use
P210	Keep away from heat/sparks/open flames/hot surfaces – No smoking
P260	Do not breathe dust/fume/gas/mist/vapours/spray
P271	Use only outdoors or in a well-ventilated area
P281	Use personal protective equipment as required
P240	Ground/bond container and receiving equipment
P241	Use explosion-proof electrical/ventilating/lighting/intrinsically safe equipment
P242	Use only non-sparking tools

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

- P243 Take precautionary measures against static discharge
P270 Do not eat, drink or smoke when using this product
P272 Contaminated work clothing should not be allowed out of workplace
P273 Avoid release to the environment
P280 Wear protective gloves/protective clothing/eye protection/face protection

RESPONSE PRECAUTIONARY STATEMENT

- P101 If medical advice is needed, have product container or label at hand
P304+340 If INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P312 Call a POISON CENTRE or doctor/physician if you feel unwell
P302+352 IF ON SKIN: Wash with soap and water
P303+361+353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P363 Wash contaminated clothing before reuse
P333+313 If skin irritation or a rash occurs: Get medical advice/attention
P370+378 In case of fire: Use alcohol resistant foam for extinction

STORAGE PRECAUTIONARY STATEMENTS

- P405 Store locked up
P403+235 Store in a well ventilated place. Keep cool

POISONS SCHEDULE (AUST)

S5

PHYSICAL & CHEMICAL PROPERTIES

Appearance : Coloured liquid
Odour: Odour of Hydrocarbons
Specific Gravity: 1.00 – 1.30 Kg/l
Solids Content by weight 27 – 30%
Solubility in water g/l: None
Percentage volatile by volume : 40 – 60

FIRE AND EXPLOSION HAZARD DATA

Highly Flammable

Flash point (°C): Below 0 Degrees C

Extinguishing Media: Dry chemical, foam or CO2

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

FIRE AND EXPLOSION HAZARDS:

Vapour is heavier than air, will accumulate in depressions and will form explosive mixtures with air. Vapour may travel a considerable distance to source of ignition. Vapours are very dangerous in enclosed spaces, which are poorly ventilated. Highly flammable, keep away from naked flame, spark or heat source.

Store cans away from oxidizing agents.

On combustion, may emit toxic fumes and acrid smoke.

REACTIVITY DATA

STABLE	X
UNSTABLE	

Materials to avoid:

Strong oxidizing agents

Hazardous Decomposition Products:

Carbon dioxide and monoxide.

HAZARDOUS POLYMERISATION:

Will not occur

National occupational exposure limit:

None assigned for this product by Safe Work Australia. However the following list of raw materials may serve as a guide.

INGREDIENTS

Composition by weight %	1-10	10-30	30-60	>60	Balance	CAS RN	TWA PPM	STEL PPM
Non Hazardous Ingredients					X		Non hazardous	Non hazardous
n-butyl acetate	X					123-86-4	150	200
n- butanol	X					71-36-3	50	N/A
M.I.B.K.	X					108-10-1	50	75
M.E.K.	X					78-93-3	150	300
PGMA	X					108-65-6	50	100
Xylene		X				1330-20-7	100	150

HEALTH HAZARD DATA

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and product label. Symptoms or effects that may arise if the product is mishandled are as follows:-

EFFECTS OF EXPOSURE

EYES: Highly irritant, which may lead to, pronounced inflammation and conjunctivitis. Damage to the cornea may result in permanent vision impairment if not treated promptly.

SKIN: May cause skin irritation after prolonged or repeated exposure, which may lead to contact dermatitis.

INHALATION: Mild irritation to upper respiratory tract may become more pronounced at elevated temperatures. More severe effects from inhalation of high concentrations of vapour include; pulmonary irritation, coughing, headache, nausea and central nervous system depression which can lead to loss of co-ordination, impaired judgement and if exposure is prolonged, unconsciousness. Pre-existing respiratory illness such as asthma, bronchitis or emphysema etc may be aggravated if inhaled.

INGESTION: Gastrointestinal irritation may cause nausea, pain and vomiting. Vomit entering the lungs by aspiration may cause potentially lethal chemical pneumonitis.

FIRST AID

EYES: Flush eyes with water for at least 15 minutes. Ensure irrigation under both eyelids is achieved. Transport patient to hospital or doctor immediately. Do not attempt to remove contact lenses, this should only be undertaken by skilled personnel.

SKIN: Remove contaminated clothing.
Wash affected areas thoroughly with soap and water. Do not wash with solvent. If irritation occurs seek medical attention.

INHALATION: Move patient to fresh air away from contamination source and remove contaminated clothing. Allow patient to assume most comfortable position and keep warm. If breathing is shallow or has stopped, ensure clear airway and apply resuscitation. Seek immediate medical attention.

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

INGESTION: If swallowed do not induce vomiting. Wash mouth with water. Give water to drink to dilute stomach contents. If vomiting occurs, place victim's head downward, head lower than hips to prevent vomit entering lungs. Seek immediate medical attention.

SAFETY PROTECTION INFORMATION

ENGINEERING CONTROLS:

Use in a well-ventilated area, under normal conditions general exhaust is adequate. Spraying should be done in accordance to local state regulations. All electrical fittings and appliances including power outlets, lighting and exhaust extraction must be intrinsically safe and in accordance to class 1 zone 1 Australian Standards, this is also required where painted surfaces are drying as evaporating flammable solvents are given off for some time and may accumulate in enclosed areas. Keep containers closed when not in use. Do Not enter confined spaces where vapour may have collected.

PERSONAL PROTECTION

INHALATION: Wear an Australian Standard Approved respirator. The selection of class and type will be dependent on level of air-borne contaminant and chemical type. For general use with adequate ventilation, an organic vapour respirator is sufficient. In conditions where high levels of exposure to spray mist and vapour are present with poor ventilation, wear full-faced air supplied breathing apparatus.

EYES: Chemical goggles or safety glasses with side shields. Do not wear contact lenses as they absorb and concentrate irritants.

HANDS: Wear chemical resistant gloves such as rubber, PVC, nitrile or neoprene. Do not wash hands with solvent; use industrial hand cleansing cream or soap and water.

CLOTHING: Wear protective clothing that minimises the risk of skin contamination. Wear safety footwear.

Toxicology Data

No specific data for product however for listed raw materials as follows:

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

m-butyl acetate

Dermal (rabbit) LD50: >14080 mg/kg
Inhalation (rat) LC50: 2000 ppm/4hr
Oral (rabbit): 7400 mg/kg
Oral (mouse) LD50: 14,000 mg/kg

Ref suppliers SDS

n-butanol

Dermal (rabbit) LD50: 3400 mg/kg
Inhalation (rat) LC50: 8000 ppm/4hr
Oral (rat) LD50: 800 mg/kg

Ref suppliers SDS

MIBK

Dermal (rabbit) LD50: >10 ml/kg
Inhalation (rat) LC50: 2000- 4000 ppm/4hr
Oral (rat) LD50: 2080 mg/kg

Ref suppliers SDS

MEK

Dermal (rabbit) LD50: >2000 mg/kg
Inhalation (rat) LC50: 34.5 mg/Lt/4hr
Oral (rat) LD50: >2000 mg/kg

Ref suppliers SDS

PGMA

Dermal (rat) LD50: >5000 mg/kg
Inhalation (rat) LC50: 4345 ppm/6hr
Oral (rat) LD50: 6190 mg/kg

Ref suppliers SDS

XYLENE

Dermal LD50: >1000 mg/kg
Inhalation LC50: >10mg/ltr
Oral LD50: >2000 mg/kg

Ref suppliers SDS

Germ cell mutagenicity: Not mutagenic

Carcinogenicity: Not expected to be carcinogenic

Reproductive and developmental Toxicity: Not a developmental toxicant
Does not impair fertility

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

Ecological Information

Avoid contaminating waterways.

Acute aquatic Hazard:	No information available for product
Long-term aquatic Hazard:	No information available for product
Ecology Toxicity:	No information available for product
Persistence and degradability	No information available but is expected to biodegrade base on its raw material makeup.
Bio-accumulative potential:	Based on individual raw materials, not expected to bio-accumulate

SPILL AND CLEAN UP PROCEDURES

Remove possible sources of ignition. Avoid breathing vapour and contact with skin and eyes. Wear appropriate safety equipment.

- Absorb all spills with a dangerous goods approved absorbent material such as sand, vermiculite etc. Place in an **Australian Standard Approved** flammable goods waste bin and add equal volume of water. Dispose of through an approved dangerous good waste management contractor.
Do not permit spilled material to flow into sewer or natural waterway.
- Place 'all spray booth' dry waste including dirty rags, overspray dust, sweepings, paint film etc in an **Australian Standard Approved** flammable goods waste bin and add equal volume of water.
- Recycle all liquid waste including paint sludge and dirty thinners when possible, otherwise place in a suitable dangerous goods approved container and dispose of through an approved dangerous goods liquid waste contractor.

Superior Timber Coatings

(Akzolux Australia) ABN: 95 080 845978

DISPOSAL PRECAUTIONARY STATEMENTS

P501 Dispose of contents/container in accordance with local, regional and international regulations

DISPOSAL RECOMMENDATION:

Dispose of in accordance with local waste management regulations in an authorised landfill or consult local land waste Management Authority for disposal.

Recycle where possible; dispose of empty vented containers through a metal recycler or at an authorised landfill.

STORAGE AND TRANSPORT

Transport in accordance with Dangerous Goods Classification 3.

Store cans in a well-ventilated area away from sources of ignition such as, open flames, heat sources, electrical arc, etc. Store cans away from oxidising agents, foodstuffs and clothing. Keep containers closed securely when not in use. No smoking
